

The Experience of Rural Family Dementia Caregivers

This three-part webinar series will engage family and professional caregivers, dementia caregiver interventionists and researchers in a conversation designed to stimulate the development of interventions aimed at supporting dementia family caregiving in rural America

Webinar Series Overview

- Designed for researchers engaged with family caregivers of persons living with dementia
- Caregiver Panel: What are the Key Challenges of Rural Caregiving?
What Programs, Interventions, or Solutions Could best Address these Challenges?
- Researcher Panel (interactive with online researcher participants): What Research Agenda Might Best Respond to these Challenges and Solutions?

Sponsors: Emory Roybal Center for Dementia Caregiving Mastery, Atlanta/Birmingham VA Geriatrics Research, Education, and Clinical Center (GRECC) and the Emory Center for Health in Aging

Speakers: Dr. Elizabeth Rhodus, Assistant Professor, University of Kentucky, SOM
Dr. Tina Savla, Professor, Virginia Tech
and Dr. Molly Perkins, Professor, Emory University, SOM
